

LonWorks Option Card

Part Number: LON-OC

With Carrier's new line of Open* controllers, connecting your Carrier equipment to a LonWorks® network has never been easier. Simply plug the LonWorks Option Card into the Open controller, and your Carrier equipment can share up to 62 SNVTs (Standard Network Variable Types), with a LonWorks® network. The LonWorks Option card utilizes Echelon's latest ShortStack Micro Server platform to allow for consistent and seamless integration into LonWorks® networks.

The LonWorks Option Card is equipped with LEDs for power, service, and transmit/receive communications for convenient troubleshooting. Screw down terminals and built-in standoffs make mounting and connecting to the building network quick and simple.

With all of these features and a cost-effective package, the LonWorks option card makes connecting your Carrier equipment to a LonWorks network a breeze!
