A Look Inside

Rheem Commercial Series™

Model RKNL 13 SEER **Model RKPL 14 SEER** Package Gas Electric Unit

Limited Warranty Information

All of our Rheem package units were developed with reliability and durability in mind. The Scroll® Compressor features a 10-year limited warranty on single-phase models installed in residential applications. The Factory Standard Heat Exchanger is backed by a ten-year limited warranty. A Stainless Steel Heat Exchanger on a single-phase model installed in a residential application features a limited lifetime warranty. A twenty-year limited warranty is offered on Stainless Steel Heat Exchangers on single and three-phase models installed in commercial applications. All other parts have a limited warranty of one year for single and three-phase models installed in commercial applications, and ten years for single-phase models installed in residential applications (Registration Required).

Protection You Can Count On

Our exclusive Protection Plus® service contract program,

available in most areas, offers you and your clients the peace of mind of extended warranty protection when the manufacturer's limited warranty ends.

The Features You Want

1 The Scroll[®] Compressor

Uses an advanced technology that has fewer moving parts, is quieter, and longer lasting.

2 Durable Cabinet/Water Management

The low-profile cabinet features a durable powder-paint finish for superior protection from the elements. Louvered panel kits are also available for added protection of the condensing coil.

Water Management:

One-piece top over indoor section Drawn, painted durable base pan 1" raised flanges for supply/return air connections

3 1" Factory Installed Filter

There are also provisions for field installed 2" filters.

4 High Static Motor Options

Direct or belt-drive options available to accommodate design conditions up to 1.5" of external static pressure.

5 Control Box Access

Our integrated solid-state control board uses proven, dependable computer technology to control all cooling and heating operations reliably and efficiently. These models also feature on-board diagnostics for easier troubleshooting.

6A Heat Exchanger

The tubular heat exchanger is constructed of aluminized steel to resist rust and corrosion.

6B In-shot Burners

The heating compartment also features in-shot burners for added efficiency and trouble-free service.

7 Forkable Base Rails

Allows for easy maneuvering and installation.
