We build quality into every component of our Amana® brand heating and air conditioning products. That's why our **Amana® Distinctions™ brand GPH13M Packaged Heat Pump** has a Seasonal Energy Efficiency Rating (SEER) of 13, and the heating component provides efficiencies of up to 80% AFUE — a significant improvement in efficiency over many of the lower SEER/AFUE units installed today. Your savings, versus lower SEER/AFUE units, can add up very quickly.

The savings start with our efficient condensing coil design. We use only high-quality rifled copper tubing and corrugated aluminum fins, which withstand the corrosive effects of moisture and extreme temperatures. Our coil design provides more cooling surface, which further increases efficiency and decreases your energy bill. Additionally, every coil that goes into an **Amana Distinctions brand Packaged Heat Pump** is thoroughly tested.

### **Quality You've Come to Expect from Amana Brand Products**

In addition to outstanding energy efficiency, the **Amana Distinctions brand GPH13M Packaged Heat Pump** provides you with the following benefits:

- High-quality, energy-efficient compressor with internal relief valve
- Louvered condenser coil protection
- Fully charged R-22 system
- EEM - Energy-efficient blower motor
- Fully insulated blower compartment for quiet operation
- Attractive Architectural Gray powder-paint finish that resists fading and corrosion
- Electric heat kit available as a field-installed option

### **Premium Comfort**

We back the quality of our **Amana Distinctions brand GPH13M Packaged Heat Pump** with the following:

- **A 10-Year Limited Parts Warranty\***  
on all functional parts

### **Additional Information**

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.
