Amana Heating & Air Conditioning®

GPH14H Packaged Heat Pump UP TO 14 SEER / UP TO 8.5 HSPF

We build quality into every component of our Amana® brand heating and air conditioning products. That's why our **Amana® Distinctions™ brand GPH14H Packaged Heat Pump** has a Seasonal Energy Efficiency Rating (SEER) of up to 14, and the heating component provides efficiencies of up to 8.5 HSPF — a significant improvement in efficiency over many of the lower efficiency units installed outside of homes today. Your savings, versus lower efficiency units, can add up very quickly.

The savings start with our efficient condensing coil design. We use only high-quality rifled copper tubing and corrugated aluminum fins, which withstand the corrosive effects of moisture and extreme temperatures. Our coil design provides more cooling surface, which further increases efficiency and decreases your energy bill. Additionally, every coil that goes into an **Amana Distinctions brand Packaged Heat Pump** is thoroughly tested.

Quality You've Come to Expect from Amana Brand Products

In addition to outstanding energy efficiency, the **Amana Distinctions brand GPH14H Packaged Heat Pump** provides you with the following benefits:

- High-quality, energy-efficient compressor with internal relief valve
- Louvered condenser coil protection
- Chlorine-free R-410A refrigerant
- EEM - Energy-efficient blower motor
- Fully insulated blower compartment for quiet operation
- Attractive Architectural Gray powder-paint finish that resists fading and corrosion

**ENERGY STAR ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the ENERGY STAR designation, get complete information at www.energystar.gov.

Premium Comfort

We back the quality of our **Amana Distinctions brand GPH14H Packaged Heat Pump** with the following:

- **A 10-Year Limited Parts Warranty***
on all functional parts

Additional Information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.
