Trane ComfortLink™ II Zoning

Amazing technology, advanced energy management, total comfort.

It's Hard To Stop A Trane.®

The Trane ComfortLink™ II zoning system puts you in total control of

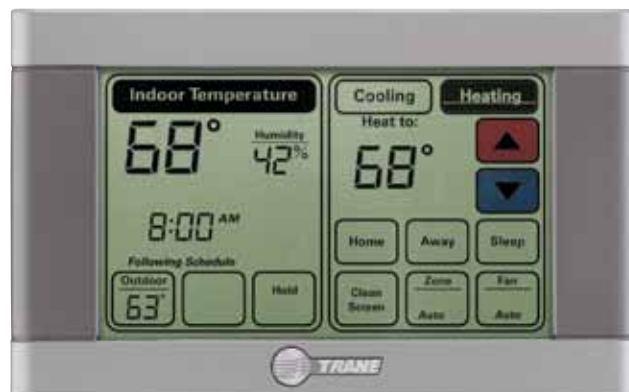

You'll appreciate the comfort a Trane zoning system offers the day your dealer installs it, and for many years to come.

Consistent temperatures and peak system efficiency can be a challenge for even the best heating and cooling systems. After all, some rooms receive more sunlight than others. Some are in the shade. Some rooms are closer to the HVAC system. And some rooms are rarely used, yet still receive heated and cooled air.

A zoning system from Trane can address all of these issues and more. Zoning works more efficiently by directing more heated or cooled air where it's needed, and less where it isn't. This not only reduces the energy spent on unused areas, it can also reduce the overall work your system has to do, prolonging system life. While you enjoy steady comfort from floor to floor and room to room.

Since a Trane zoning system reduces wasted energy, it can help lower your carbon footprint.

Wireless Zone Thermostat

Acting as both a sensor and a zone thermostat, the Wireless Zone Thermostat relays temperature data to the Trane ComfortLink™ II Control, while also allowing adjustment of an individual zone. Perfect for a master bedroom or a home office.

your home's comfort and efficiency.

Trane ComfortLink™ II Control

At the heart of your Trane zoning system, you'll find the Trane ComfortLink™ II Control. It's more than a thermostat; it's an easy-to-use advanced command center that provides a seamless interface between your system and your life.

Your personal comfort network.

Each additional zone in your home will have either a Wireless Zone Thermostat or a Wireless Zone Sensor feeding temperature data to the Trane ComfortLink™ II Control. For your convenience, you can adjust the temperature in any zone using the Trane ComfortLink™ II Control, or adjust temperatures individually in zones that have a Wireless Zone Thermostat.

Wireless Zone Sensor

This wireless sensor provides temperature data to the Trane ComfortLink™ II Control, allowing heated and cooled air to be directed where it's needed. Zones with a Wireless Zone Sensor are adjusted using the Trane ComfortLink™ II Control. Perfect for a child's room or a guest room.

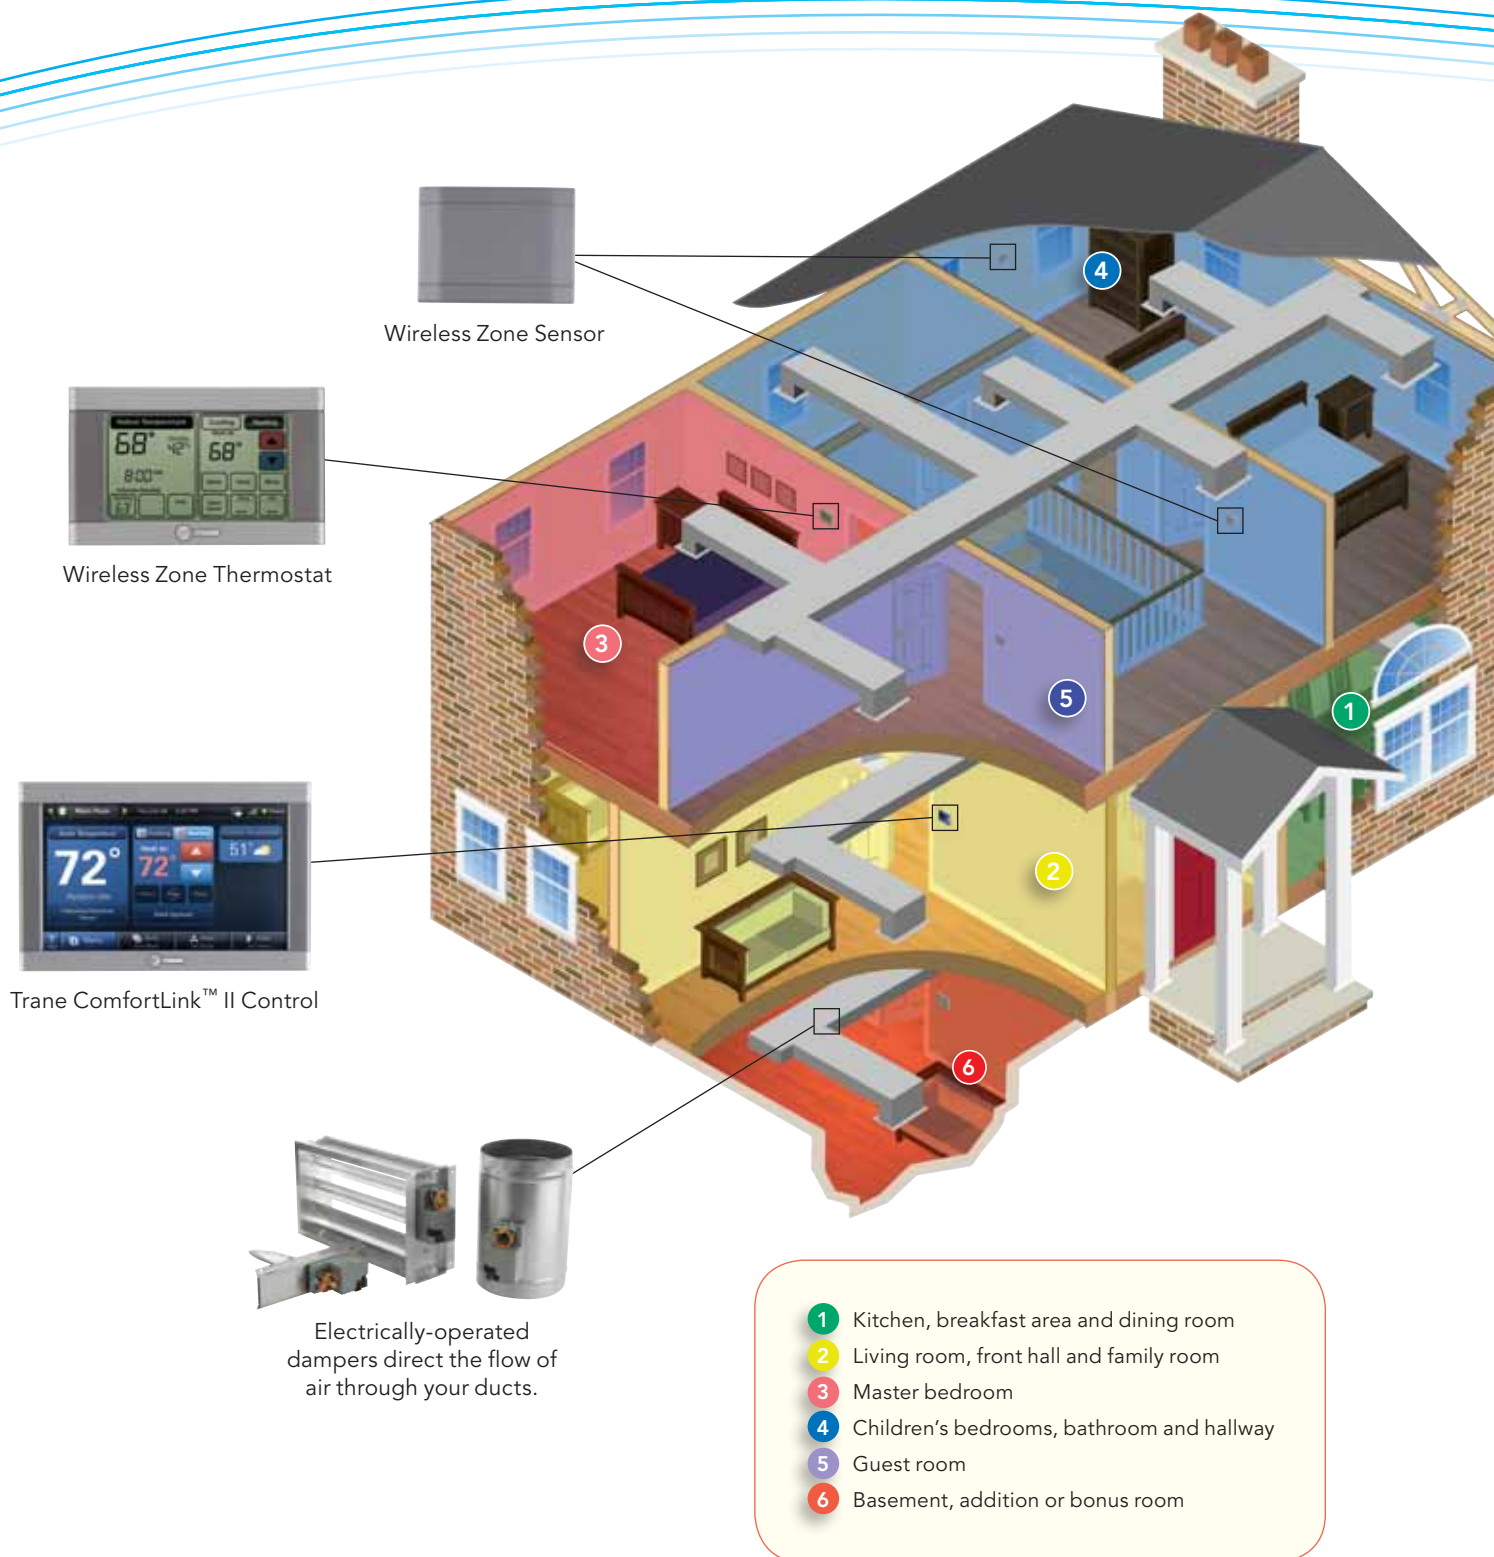

We're proud to say Popular Mechanics proclaimed the Trane ComfortLink™ II Control "One of the Most Transformative Products of 2010," awarding it the coveted Breakthrough Award.

The Trane ComfortLink™ II Control is redefining the thermostat with its integration of advanced system monitoring, wireless connectivity and functionality into homeowners' lives. We're constantly pushing technology to new levels, so we can do the same thing for your comfort.

Understanding your zoning system.

Think of a Trane ComfortLink™ II zoning system as precise comfort on demand. Unlike conventional systems that can only heat or cool the entire house at once, a zoning system directs heated and cooled air on a zone-by-zone basis, allowing you to control each zone as though it were an individual house.

During the summer, your Trane matched zoning system uses an air conditioner or heat pump to cool the air, and a furnace or air handler to circulate it through your ducts. Mechanical dampers in the

ducts open and close to redirect cooled air where it's needed, keeping temperatures consistent throughout your house.

In winter, your Trane matched zoning system uses a heat pump or furnace to warm the air, and an air handler or furnace to move it through the ducts. Dampers direct this warm air where sensors determine it's most needed, giving you even, steady heat with no cold spots or chilly rooms.

Zone Control

Monitor the temperatures in each zone of your home at a glance, and change them as needed with just a touch.

Scheduling

A bright, clear scheduling interface makes it easy to use less energy when your home is unoccupied.

Zone Menu Screen

Access the most important zoning features all in one place.

Custom Zone Names

Makes it more intuitive and easier to monitor and adjust zone temperatures throughout the house.

System Usage

A detailed history of your system's run times, broken down by zones, makes it easy to better plan your energy management.

Trane ComfortLink™ II Zoning. Breaking new ground in technology,

The incredible comfort of a Trane zoning system takes a truly sophisticated command center. Meet the beautifully designed, technologically advanced Trane ComfortLink™ II.

Digital Picture Frame

When it's not being used to monitor or adjust your comfort, the Trane ComfortLink™ II Control is a fully-functional digital picture frame capable of displaying an individual photo or an entire slide show. Photos are stored on a commonly-available SD card.

Optional Bezel Designs

To make your zoning system an even more integrated part of your life and home, the bezels on the Trane ComfortLink™ II Control and Wireless Zone Thermostat are available in a wide variety of fashionable colors to match any decor. Choices include silver/gray (as shipped), silver/black, graphite, white or black.

Customizable Background Colors

To further integrate the Trane ComfortLink™ II Control into your home, choose one of eight fashionable background colors for the display.

Make zoning part of your matched Trane system.

When everything works together, the comfort can be amazing. Connect your Trane ComfortLink™ II Control and zoning equipment to a matched Trane system and you'll see for yourself. Every component is designed to work in harmony with the others, optimizing your comfort and energy use over time. So you'll enjoy the most consistent, efficient, steady comfort possible.

What is Trane Air™?

We've devoted years to producing air that has been flawlessly conditioned and meticulously cleaned. Air that feels fresh and crisp with each breath. We call it Trane Air, and you can experience it for yourself when you install the optional industry-leading filtration of Trane CleanEffects™.

Air that's dirty and full of particulates can not only feel uncomfortable, it can cause breathing problems for family members and exacerbate existing respiratory problems like asthma and allergies. Fortunately, the exclusive .1 micron filtration of an optional Trane CleanEffects removes up to 99.98% of airborne pollutants from heated and cooled air, providing the most technologically advanced air filtration available. That's welcome relief for everyone in your home.

Clean Air Delivery Rate

measures the effectiveness of air cleaning appliances. The higher the clean air delivery rate, the more effective the unit is at cleaning the room or home of airborne particles and allergens.

					
Typical In-room Appliance	Standard 1-inch Filter	Typical Room HEPA Appliance	Whole-House 5-inch Media Filter	Whole-House Electronic Air Cleaner	TRANE CleanEffects
Clean Air Delivery Rate:	Clean Air Delivery Rate:	Clean Air Delivery Rate:	Clean Air Delivery Rate:	Clean Air Delivery Rate:	Clean Air Delivery Rate:
10	12	150	240	660	1,200

Clean air delivery rate (efficiency times airflow rate) is recognized by the Federal Trade Commission (FTC) and the Environmental Protection Agency (EPA) as a fair and objective measure of various air cleaner technologies. Ratings reflect cubic feet per minute of clean air delivered for a typical 3-ton heating and cooling system: the higher the value, the more effective the air cleaner.

Independent Trane dealers value reliability as much as you do.

Your independent Trane dealer knows his or her reputation is made at every sale, and with every installation. Therefore, they are as personally invested in your comfort as you are, and take great pride in creating your perfect indoor environment.

Trane dealers are some of the most highly-trained in the business, with advanced technical skills to optimize every installation and solve any issue.

They have an extensive understanding of the movement and conditioning of air,

and the expertise to create a perfectly balanced, ultra-efficient system for every home. Trane dealers believe in doing the job right, every time. Otherwise, they wouldn't be Trane dealers.

The products they sell provide peace of mind as well, with robust, no-nonsense warranties. Additional warranty details are available from your dealer. So relax and get comfortable. You have a Trane.
